INSTALLATION INSTRUCTIONS Barrier/Guardrail Safety Caps™

Mounted Guardrail Safety Cap™

Application:

Weather proof, moisture cure, polyurethane adhesive designed for outdoor use, mfr. recommended for bonding metals and plastics

Requirements:

No special tools; no weather restrictions or requirements for mounting

Installing Guardrail Safety Caps™:

1. Remove any loose galvanizing from post.
2. Dry-fit the cap to the post to test and ensure fit.
3. Remove cap and apply beads of adhesive to the grooved bottom of the safety cap to fill the channel.
4. Press the cap down firmly on the post ensuring any air bubbles escape.
