## PRODUCT INFORMATION

### Barrier/Guardrail Safety Caps™

Mounted Guardrail Safety Cap™

#### Application:

Barrier/Guardrail Safety Cap™ to mount on steel post

#### Material:

Hi.Fax-XL-85A

#### ~ Advantages of Guardrail Safety Caps™ ~

- Cost effective, and low cost
  - Fast, easy mounting on steel post
  - No drilling required on post
  - No special tools required
- 
- Mounts with Construction Liquid Nails
  - No weather restriction for mounting
  - ALL parts and materials are made in the U.S.
  - Plastic material used in the cap offers good chemical resistance, great impact resistance even at low temperatures, heat resistance, and outstanding aesthetic and flow characteristics. Material offers outstanding performance in applications that are exposed to harsh conditions or that require a high degree of toughness.
  - High level of impact strength at temperatures down to -40 degrees F (-40 degrees C)
  - UV stabilized formulations for good weatherability
  - Available in BLACK, recommended for best performance
